PRIMARY SKILLS

React ★★★★★
JavaScript/ TypeScript ★★★★★
Angular ★★★★★

SECONDARY SKILLS

AWS ★
Azure ★
Node JS ★★

LIBRARIES

D3.JS, High charts, Google Charts, Ag-grid, Kendo UI, Angular Material, NGRX, Unit Testing, Redux

PROJECT MANAGEMENT

GIT, SVN, JIRA, Gitlab, CI/CD

PROFILE SUMMARY

- Software Developer offering around 7 years of experience and working according to Agile methodology.
- Currently working with Ernst & Young (EY) India as a Senior Consultant in Technology, serving clients across Government & Public Sector, Financial Services, and Capital Markets domains.
- Led the design and development of responsive, accessible, and secure front-end applications using React/Angular, ensuring compliance with government.
- Collaborated closely with cross-functional teams, including backend developers, UI/UX designers, QA, and business analysts, to deliver scalable solutions within tight government timelines.
- Migrated legacy front-end systems to modern SPA architecture, improving performance and maintainability for critical public services platforms.
- Implemented reusable component libraries adhering to design systems and branding guidelines specific to the public sector domain.
- Ensured front-end applications were optimized for performance and security.
- Integrated front-end modules with government APIs while maintaining strict data privacy and validation protocols.
- Actively participated in Agile ceremonies (Sprint Planning, Reviews, Retrospectives) and contributed to continuous improvement in delivery processes.
- Developed automated testing suites (Jest, Karma) to maintain code quality and ensure reliable deployments for citizen-facing applications.
- Mentored junior developers and conducted peer code reviews to maintain consistency and adherence to best practices across the team.
- Supported UAT and production deployments, including issue resolution, performance monitoring, and user training sessions for government stakeholders.

WORK EXPERIENCE

Since Aug'21 with Ernst & Young (EY) India as a Senior Consultant

Key Result Areas:

Responsible for building scalable, secure, and user-centric full-stack JavaScript applications across both government and financial sector projects with FIS, BNYM, Ministry of Health and Ministry of Home affairs.

- Contributed to the modernization of key government platforms such as MUHS and Digital Sansad, improving accessibility, performance, and citizen engagement.
- Collaborated with government stakeholders to deliver responsive and inclusive digital services, focusing on modern UI/UX and scalable system architecture.
- Delivered enterprise-grade solutions for global finance and investment banking clients with an emphasis on security, compliance, and real-time data processing.
- Worked closely with cross-functional teams including design, QA, DevOps, and product stakeholders to ensure alignment with business goals and technical standards.
- Focused on clean architecture, performance optimization, and best practices within modern JavaScript, React, and Node.js ecosystems.
- Passionate about driving digital transformation through robust, innovative, and user-friendly technology solutions.

Since Aug'20 to Jul 21 with I2E Consulting, as a Software Developer

Key Result Areas:

- Developed back-end process to fetch the result on the basis of business logic and display on UI interface.
- Developed Front End of the application, Collaborating with UI-UX Team.
- Developed Rest API using Node JS consumed by Angular UI.

- Liaising with users for requirement gathering, preparing functional specifications and high-level design documents
- Mapping client's requirements and providing effective solutions involving evaluation and definition of scope of project and finalisation of requirements

Oct'18 to Aug'20 with Conduent Business Services ,as a Application Developer

Key Result Areas:

- Developing back-end process to fetch the result on the basis of business logic and display on UI interface.
- Developing Front End of the application, Collaborating with UI-UX Team.
- Mapping client's requirements and providing effective solutions involving evaluation and definition of scope of project and finalisation of requirements
- Delivering & implementing the project as per scheduled deadlines.
- Extending post-implementation and maintenance support to the technical support team and client.
- Adaptable to work on all the technologies from UI to Backend (Full Stack).
- Provide extended support in all kinds of development or bug fixing in the production environment.

PROJECTS UNDERTAKEN

➤ Project Title: Digital Sansad

Client: Parliament of India
Role: Lead Front End Developer
Technology: Next JS, JavaScript, AG Grid , ANT Design
Version Control: Gitlab , JIRA

➤ Project Title: MUHS Modernization

Client: Maharashtra Health University
Role: Lead Front End Developer
Technology: React JS, JavaScript, React Bootstrap ,
Version Control: Gitlab , JIRA

➤ Project Title: Classified

Client: Fortune 500 FinTech Product organisation
Role: Lead Front End Developer
Technology: Angular 14, JavaScript/TypeScript, NGRX, Ag-Grid, RXJS, Spring Boot
Version Control: Gitlab , JIRA

➤ Project Title: Classified

Client: Leading Global Investment Bank and custodian
Role: Senior Front End Developer
Technology: React, JavaScript/TypeScript, Redux, Ag-Grid, Spring Boot
Version Control: Gitlab , JIRA

➤ Project Title: Classified [Pharma/ Life Science]

Client: Fortune 100 Pharma Company
Role: Project Lead
Technology: Angular 12, JavaScript/TypeScript, NGRX, D3.JS, Node.JS
Version Control: GIT , JIRA

➤ Project Title: Classified [Pharma/ Life Science]

Client: Fortune 100 Pharma Company
Role: Front End Developer
Technology: Angular 11, JavaScript/TypeScript, NGRX, Kendo UI, Node.JS
Database: Mongo DB

Version Control: JIRA , SVN

➤ **Project Title: LA- METRO [Transportation]**

Client: Metro
Role: Full Stack Developer
Technology: Angular 10, JavaScript/Typescript, Google Charts, Java Spring Boot, Google charts
Version Control: SVN , JIRA

➤ **Project Title:Ohio City [Transportation]**

Client: Ohio City , Department of Transport
Role: Full Stack Developer
Technology: Angular 8, JavaScript/Typescript, Google Charts, Java Spring Boot, High Charts
Version Control: SVN , JIRA

➤ **Project Title: NJ- Transit [Transportation]**

Client: New Jersey , Department of Transport
Role: Full Stack Developer
Technology: Angular 7, JavaScript/Typescript, Google Charts, Java Spring Boot, Google Charts
Version Control: SVN , JIRA

HONOR'S, CERTIFICATIONS AND PAPER PUBLICATIONS

- **AZ-900, AWS Cloud Practitioner**
- **Badge- GitHub Arctic Code Vault Contributor, EY Cloud Badge**
- **LinkedIn Learning - Node.JS Essential Training, Learning ES-6,Database Clinic Neo-4J**
- **Udemy –Bootstrap 4, Node JS, Angular Security**
- **Google India Scholarship Program for Front End Development**
- **Published 7 Research Papers with 22+ Citation.**
- **Honours- Conduent Honour's for exemplary Performance and delivery of the project in time , EY Client Extraordinaire**
- **Freecodecamp.org-JavaScript Algorithms and Data Structures**
- **Scrum Foundation Professional Certificate**

EDUCATION

2018:	Diploma in Advance Computing from C-DAC, Hyderabad
2016:	Master's [WCC, CSE] from GHRCE , Nagpur, Secured 9.14/10 CGPA
2013:	Bachelors (ECE) from MIT-AOE Pune, Secured 62.33%
2009:	12th from A.K.Jr College Ratnagiri, Maharashtra State Board, Secured 85.17%
2007:	10th from New English School, Lanja. Maharashtra State Board, Secured 88.30%
